Harry at AICN has done a follow up article to all the hoopla over the Cloverfield trailer seen in theaters these past 2 weeks (attached to Transformers). His original article "Regarding CLOVERFIELD And THE DARK TOWER!!" set off a tremendous amount of interest amongst fans and of course the trailer had many speculating on exactly what the heck this codenamed movie is about. Including speculation about it being a Voltron movie (sorry folks, it isn't).

His new article "RUMOR CONTROL! Let's Talk About CLOVERFIELD/SLUSHO/1-18-08! " puts to rest some of the speculation. And of course addresses the other sites that has nothing to do with Cloverfield. I highly suggest this article in case you are still wondering what Cloverfield is really about; and of course the mystery we will have to endure for the next 6 months until its release into theaters.
